Drone visual inspection + written summary	\$750/visit; four from \$3,000
General safety staffing / orientations / recurring coverage	Custom quote based on role, hours, location and deliverables

Scope and deliverables

Each quote identifies preparation, session or site hours, number of locations and participants, reporting, revisions and travel. Toolbox-talk duration and content are agreed in writing. Document pricing is for a scoped task document; complexity and revision limits are stated in the quote. Drone visits depend on qualified operation, site permission and feasible flight conditions.

Staffing is part of the consulting offering. Role qualifications, coverage hours, mobilization, travel, overtime and replacement arrangements are priced for the specific assignment. General safety staffing is not priced using former maintenance or trade-labor rates.

The initial discovery call is complimentary for up to 30 minutes and covers fit and scope. Paid advisory is billed in 30-minute increments. Preparation, travel, research and written deliverables beyond the stated scope are quoted separately.

Private combination with Bloodborne Pathogens — up to 12	\$3,000/class minimum
Standalone CPR/AED, First Aid or Bloodborne Pathogens; private OSHA cohorts	Custom quote

OSHA rates apply to Construction and General Industry. Live virtual delivery is offered only when current trainer authorization and the applicable program requirements permit that format. Private cohort pricing is costed for the actual course and group; earlier automatic group discounts are retired.

CPR/AED and First Aid may cover adult, child and infant skills as specified in the selected HSI course. Maximum planned class size is 12, subject to equipment, venue and program requirements. Private class minimums apply even when fewer than 12 attend. Standalone courses and travel are quoted separately.

MSG confirms the exact course, instructor authorization, age groups, delivery method, materials, completion requirements and documentation before enrollment or payment. Only verified and currently authorized courses are advertised. No replacement public OSHA dates have been announced for the cancelled October cohort.
